

Instructions

Step 1:

StarryNight comes ready to attach to your flagpole. Bring your StarryNight bag over and connect your metal Snap to your halyard. Lift StarryNight up a few feet and tie off for next steps.

Step 2:

Unclip your coil chain and wrap around pole.

Step 3:

Secure your coil chain to the StarryNight box.

Plug your star into the top of your StarryNight box. Make sure to securely press the star plug in place.

Step 5:

Use the 2 inch screw that came with your StarryNight to secure your star in place. Tighten until the star is very snug.

Step 6:

Pull Your StarryNight just above head height and tie the halyard in place for next steps.

Step 7:

Make sure the halyard is tightly secured before proceeding to the next step.

Step 8:

Now that StarryNight is at head height, untie strands one at a time and walk back to make diameter around pole. Please refer to diagram B included in your package to see how to place strands in proper alignment. You can use the stakes to hold temporary in place.

Step 9:

Slowly pull up StarryNight. Please make sure strands do not tangle. Strands should be evenly spaced according to diagram B.

Step 10:

Place Stakes through the plastic ends to secure light strands in ground.

Step 11:

Readjust to the shape of tree that you prefer. If you would like to have a narrow tree simply wrap the strands around the stake for desired length.

Step 12:

Step back and enjoy your StarryNight!
